

Dear Sedgwick Jr. High and High School Families,

As you know, Sedgwick School District has made the difficult decision to move to a hybrid learning plan for our 7-12th grade students at this time. This effort is aimed at limiting the spread of Covid-19 virus, and in accordance with the county recommendation. Although our students will be at school part time and remoting in part time, the district remains committed to providing ongoing support and resources through this unprecedented situation.

If students are needing social/emotional support during this transition, they are encouraged to reach out to Mrs. Lynch, 7-12th grade school counselor, via email (klynch@usd439.com) or they can stop by my office on their scheduled days at school. I'm happy to help in any way that I can! Below is a list of additional resources and contact information (in Harvey County) you may find helpful:
